SKILLS **CODE:** JavaScript, jQuery, AJAX, CSS, HTML, ActionScript3

APPLICATIONS: vim, git, MySQL, Photoshop, Illustrator, Flash, InDesign, Movable Type, Textpattern, Wordpress

EXPERTISE: Standards-based website design, JavaScript Application Development, Progressive Enhancement, Graphic Design, Information Architecture, User Testing

EXPERIENCE **Web Designer, PBS KIDS Interactive**
July 2008 - Present, Crystal City, VA

Lead Designer for the management team behind award-winning PBS KIDS Island and PBS KIDS The Great Word Quest, both rich-media Flash sites incorporating dozens of educational literacy games. Received PBS's Bravo Award for suggesting and developing a JavaScript bridge system for links leading outside of the PBS KIDS domain that replaced a costly and cumbersome database system. Developed the JavaScript for the PBS KIDS GO! login system. Established jQuery as the official library for PBS KIDS and provided technical training to the development and design teams. Provided design review as a member of the PBS KIDS design team on all new sites in the PBS KIDS family. Developed the HTML, CSS, JavaScript, and Movable Type template code for the PBS Design Blog. Created Flash components for PBS KIDS Island Parents & Teachers section using AS3.

Web Designer, Matrix Group International, Inc
July 2007 - July 2008, Alexandria, VA

Created outstanding web designs for wide variety of clients. Worked in combination with wireframes, personas, and user goals to produce designs that met business goals and worked effectively as part of clients' brands. Presented designs in client meetings. Worked with front-end developers in slicing and implementing designs afterward. Interacted directly with clients in coordinating projects. Worked as part of a team, frequently collaborating with front-end developers and developers in supporting clients.

Front-End Developer, Matrix Group International, Inc
November 2005 - July 2007, Alexandria, VA

Earned rave reviews from clients as their primary support staff. ("Nate, you are a god-send.") Performed troubleshooting and content updating for client sites. Sliced new designs into elegant, standards-compliant, validating XHTML and CSS. Performed content audits, large-scale implementations, and provided staff training for numerous clients. Managed mailing lists for clients through Lyris List Manager.

Agroforestry Volunteer, United States Peace Corps
2004 - 2005, Poli, Cameroon

Worked in a small village in Central Africa to promote sustainable agriculture through use of trees in combination with food crops. Learned and used French to deliver presentations to village leaders and farmers and to work one-on-one with farmers on nursery projects. Taught English in the village high school.

EDUCATION St. John's College, Annapolis, MD
Bachelor of Arts
